this book provides an original analysis of change management in organizations in the light of wider sociological perspectives and critically examines the theoretical frameworks underpinning many contemporary accounts of organizational change

in recent years there has been an explosion of books on the nature of organisational change and the management skills needed to effectively carry it out many are written by change gurus and

management consultants offering quick fixes and metaphor laden business toolkits however much of their advice is banal and under theorized this book redresses this balance by providing an original analysis of change management in organizations in the light of wider sociological perspectives it critically examines the often implicit theoretical frameworks underpinning many contemporary accounts of organizational change and covers subjects including the importance of explicit analysis of theory and context a critique of populist management gurus and quick fix how to solutions under socialized models of change which emphasise structure over human action trenchant analysis of soft hrm solutions the management of culture radical and innovative this book the first to adopt a sociological approach is a much needed challenge to the orthodoxies of change management

change is frequent in healthcare yet change management is often far from perfect this book considers the complexity of change within large organisations explores existing models of change and emphasises the vital role of emotional and cognitive readiness in successful change management despite the plethora of organisational change management approaches used in healthcare the success rate of change in organisations can be as low as 30 percent new thinking about change management is required to improve success in service development improvement and innovation arguing that emotional and cognitive readiness for change requires engagement with the people involved and a thorough understanding of areas of friction and potential challenge this book also delves into the neglected issue of emotion examining emotional labour and emotion and change it investigates how human emotion can be incorporated into change management models alongside and intertwined with cognitive approaches to support effective change using the nhs as a central case study this book incorporates examples of actual change from a range of healthcare settings from acute to primary care enabling readers to see how change management models can be adapted and utilised in practice this is an essential read for students as future change leaders and practitioners and managers leading and managing change in healthcare
